OR Notice  
PL-15

**For:** County Offices

## Oregon Policy on CCC-502

**Approved by:**

Larry E. Frey, State Executive Director

jg

### 1 Overview

#### A Background

On February 20, 2003, an email message was sent from this office giving instructions to obtain a new CCC-502, CCC502U and/or CCC-502 Continuation for all DCP participants. It has been brought to the attention of the State Office Specialist that those instructions conflict with earlier verbal instructions. At an earlier date, Notice PL-110 was interpreted to only require a new CCC-502 or CCC-502U when there were changes in the farming operation since the previously filed CCC-502. This interpretation was made due to the reference in the Notice to paragraph 50, 1PL, Rev. 1.

#### B Purpose

The purpose of this Notice is to reissue the instructions given in the February 20, 2003 email with some modification to those instructions.

### 2 Action

#### A Participants who have completed 2002/2003 Signup for DCP

One of the following must be on file for all DCP participants who have completed signup for 2002/2003 DCP:

- New CCC-502
- New CCC-502U and/or CCC-502 Continuation
- A written statement certified by the CED that the previously filed CCC-502 was reviewed with the participant during DCP signup.

#### B Other Program and Future DCP participants

For all future DCP signups completed after receipt of this notice and any other future program that requires CCC-502, one of the following must be obtained:

- New CCC-502
- New CCC-502U and/or CCC-502 Continuation.

This requirement must be completed on an annual basis for any program that requires an annual signup.

#### C CCC-502 When there are no Changes

If there are no changes to the farming operation since the previous CCC-502, then attach a photocopy of the most previous CCC-502 to a new CCC-502U and have the participant sign the new CCC-502U.
